

Make A Mastodon

Supplies

Brown and white construction paper
Markers & Crayons
Scissors
Tape
Glue Stick

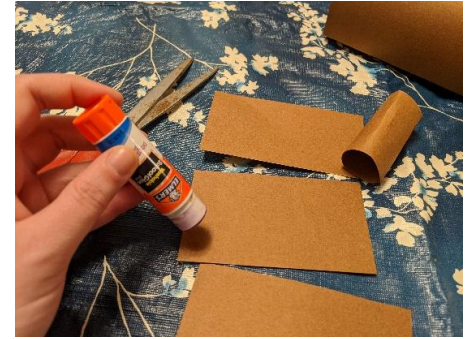

Step One

- Take one sheet of brown construction paper and fold 1.5 inches on both ends
- Bring the ends together keeping the middle in a dome shape
- Glue the two ends together – the result should look like a mailbox

Step Two

- Cut out rectangles for the legs, trunk, tail, and an arch shape for the front and back of the Mastodon

Step Three

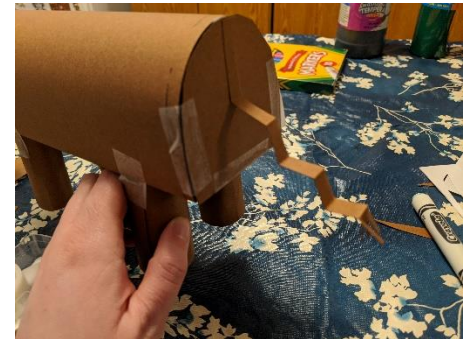

- Roll the leg pieces into tube shapes and glue ends together
- Using tape, attach the legs to the underside of the Mastodon
- Tape the front and back arch pieces to the body of the Mastodon to make a closed tube

Step Four

Make a face and tail!

- Accordion fold a piece of brown paper and glue it on for the trunk
- Cut out two white circles for eyes, use a black marker or crayon to color in pupils, and glue them on
- Cut out two white tusks and glue one on each side of the Mastodon
- On the other end of the Mastodon, glue a long piece of paper for the tail

Step Five (Optional)

- Use brown and black crayons to add fur detail to your Mastodon
- Add fringe cuts to leftover brown paper and glue it on for a furry look

You're done! You've made a Mastodon!
